Ryan Yuan Feng Chen  
Bell Canada  
Retail Sales Associate

Dear Mr. Chen,

Hope you are doing well and thank you for reading this portfolio.

I would like to take this chance to briefly explain what this portfolio will contain. This digital portfolio includes my goals, projects, references and more. The information contained in the pages will explain why I am perfect for this position and talk about my experiences in different technologies.

In the first section, you can see a picture of myself, a download button for my resume and a brief paragraph about me. The paragraph talks about my background as an immigrant from Hong Kong. My interests, passion for STEM and some other hobbies.

In the second to fourth sections, I talk about my goals, skills, and projects I have worked on. These sections talk about my high school goals, post secondary goals, part time career goals, future career goals, personal goals and financial goals. They also talked about my skills, this section is more shifted towards technical skills and programming skills, showcasing my skills in the tech area. The fourth section talks about the past projects, including my work in Markham Fire Birds, a team based on First Robotics.

The last section talks about my references and my contact information, including a form that you can use to contact me. The main reason I want to enroll in the Bell Canada company is because their mission "Making connection between Canadians better" really matches with my beliefs. As a Canadian, there are lots of situations where a better connection can solve problems. Having better connections makes me and all Canadians' lives better.

I would like to participate in the interview and obtain a chance to enroll in your company. Please feel free to contact me based on the information on my website or using the form.

Sincerely,  
Jayden Yiu
